

NOWOLE

A thick mat very soft fabric with an interesting melange structure resembling wool in touch, was presented in a dozen fashionable toned colors. Ranging from the white, beige, brown and grey tones of the land, to the shades of aqua and blue that invite us to fly between the sky and the sea, not leaving aside the beautiful fuchsia and romantic pale pink. It is beautifully draped in curtains and is also perfect for upholstery furniture. It will provide a sense of comfort and cosiness in the interiors of modernist and classical residential spaces.
